DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 8, 10-12 and 14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claim 8, 10-12 and 14 (filed 12/22/08), the newly added claimed limitations recite *"A program storage device readable by a machine, tangibly embodying a program of instructions executable by the machine to cause the machine to"*.

Therefore, the claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 8, 10-12 and 14 (filed 12/22/08) are rejected under 35 USC 101 because the claimed invention claimed invention is directed to non-statutory subject matter.

The preamble of claims 8 and 12 are not clearly supported in the original disclosure because *A program storage device readable by a machine, tangibly embodying a program of instructions executable by the machine to cause the machine* to have not been positively disclosed.

The claimed limitation "*program storage device*" in claims 10, 11 and 14 is not clearly supported in the original disclosure because "*program storage device*" has not been positively disclosed.

REASONS FOR ALLOWANCE

5. Claims 1, 3-5, 7, 29, 31 and 32 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1, 3-5, 7, 29, 31 and 32 are allowable over the prior art of record for the reasons as stated Applicant's remarks dated 07/02/09 (pages 9-18).

Response to Arguments

6. Applicant's arguments with respect to claims 8, 10-12 and 14 have been considered but are moot in view of the new ground(s) of rejection.
